How it works

FOUR STEPS · TWENTY SECONDS

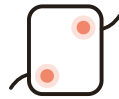

01

Open HugClock

No app store, no account. It opens straight in the browser.

02

Shared or solo

Together, each person holds a corner. On your own, one thumb is all it takes.

03

Hold for 20 seconds

A soft breathing cue guides you. Hug, high five, or simply breathe alone.

04

Keep the moment

Snap an optional photo keepsake. It stays private on your device.

A NOTE ON CONSENT

Every gesture is voluntary and welcomed by both people, never expected. A smile, a handshake, a high five, a fist bump, a coffee or kind words all count as a human moment.
